Subject: Additional 30-Day Review for Draft EIR Appendices: Transit Oriented Development Plans for the Westchester/Veterans and Crenshaw/Imperial Metro Station Areas

The City of Inglewood is providing members of the public and public agencies with a 30-day review period for Draft Environmental Impact Appendices. While these documents were available upon request during the Draft Environmental Impact Report (DEIR) circulation period, they were not posted on the City's website during the original 45-day review period for the Westchester/Veterans and Crenshaw/Imperial TOD Plans Draft EIR (State Clearinghouse #2017101068, City of Inglewood EA-EIR-2021-066).

The following Draft EIR Appendices can be found on the City's website at:
<https://www.cityofinglewood.org/1016/Environmental-Documents>

- A. Notice of Preparation
- B. Responses to the Notice of Preparation
- C. Air Quality and Greenhouse Gas Modeling Results
- D. Noise and Vibration Modeling Results

Please note that the Draft EIR incorrectly refers to both the Notice of Preparation (NOP) and Responses to the NOP as "Appendix A." However, the NOP and NOP responses are separate appendices (A and B). The Draft EIR also incorrectly refers to Air Quality and Greenhouse Gas Modeling Results as being in separate appendices. Because the same CalEEMod model runs were used for both air quality and greenhouse gas analysis, a single set of CalEEMod model runs are presented in Appendix C.

Please also note that, with the exception of modeling results (Appendices C and D), the entirety of air quality, greenhouse gas, and noise and vibration technical analyses were presented in Sections 3.7, 3.8, and 3.10 of the Draft EIR, respectively. There are, therefore, no separate technical reports.

A technical traffic report was prepared for informational purposes and can be found on the City's website at the address cited above. These and other references will be corrected in the Final EIR.

The City requests that comments be limited to the above reports and the Draft EIR sections they support (i.e., Air Quality, Greenhouse Gas Emissions, Noise & Vibration, Transportation). The City further requests that such comments be provided by **August 23, 2021**.

Comments on the Draft Program EIR appendices should be sent to:
